

TCM Forklift Part

TCM Forklift Parts - In the international trade of material handling, lift trucks play an important role for transporting industrial goods. Originally innovated as industrial vehicles during the 1930s in the U.S., lift trucks gained recognition following WWII during the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these equipment spread internationally.

In the year 1949, started by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was recognized. Now the business is simply called TCM Corporation. Throughout the years, TCM forklifts have become a global leader in lift truck manufacturing and have built a solid reputation in the trade. TCM started constructing forklift manufacturing sites outside of Japan during the 1980s and is presently engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly makes various models of industrial forklifts with more than 50 years of accumulated technology and expertise, making their products used and recognized all over the globe. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and intends to become a world-class leading company.
